Tokio Fears Possible Control of Shipping by America

WASHINGTON, Aug. 7.- Japanese steel concerns were reported to-day to have stopped all fresh dealings as a purposes. Advices from Tokio say it is chance to file their claims, feared there that the United States government may get control over Japanese shipping through the embargo on coal and shipbuilding materials.

The visible stock of materials, especially steel, is becoming very low in Japan, and prior to the exports ruling only next year's contracts were being made by American mills. It was doubtful if even these contracts would be executed. As a consequence, the boom in steel prices in Japan has been spectacular.

One report from Tokio says:

The crowd of young men gazed at the soldier, who was Captain David the States, is now building many wooden vessels. Their size varies from 500 to 1,000 tons, and a few larger ones are being built. Most of them are ones are being built. Most of them are citally useless. But I have comes to offer my services. You, too, are Jews. Those of you who can serve should do so. One report from Tokio says:
"Owing to the high prices and scarcity of steel materials Japan, like the United States, is now building many wooden vessels. Their size varies from 500 to 1,000 tons, and a few larger ones are being built. Most of them are intended for domestic trade. Most of the wooden vessels are made of hinoki, kashi and pine. American pine is much kashi and pine. American pine is much preferred on account of its durability.

steam. More than twenty such vessels, aggregating 6,000 tons, have been built in this country since the war, and twenty more, aggregating 12,000 tons, are now under construction. Indications point to a steady increase in their number as well as in their tonnage."

The big Japanese shipping lines are buying or building shippards for construction of new tonnage and for repairing old vessels. In addition to meeting the demands of the Japanese carrying trades, the Japanese yards are receiving orders for a large number of ships to be built for foreign interests.

Detailed figures on the tonnage built Detailed figures on the confage but in Japan during the first six months of 1917 and of bottoms now being constructed at Japanese yards were received here to-day. AUSTIN, Tex., Aug. 7.—Financial re-lations said to have existed between Governor James E. Ferguson of Texas and the Houston National Exchange and the Houston National Partials Bank were gone into at the afternoon session to-day of the Texas House of Representatives investigating charges preferred by Speaker F. O. Fuller. It was brought out that the State Peni-tentiary Commission deposited \$144,541 in this bank, on which no interest was

paid.

The forenoon session was devoted principally to the testimony of Henry Blum, asistant cashier of the Temple (Tex.) State Bank. Blum testified he was mistaken in his testimony yesterday concerning a debit of \$5,600 against Governor Ferguson on August 23, 1916.

Henry Fox, president of the Houston. National Exchange Bank, was the principal witness this afternoon. He told cipal witness this afternoon. He told of the part taken by his bank in the arrangements made last March in clear ing up the Governor's accounts with the Temple State Bank.
